

RETINA

Retina Customer Intelligence Benchmark Analysis

See how you compare to your top competitors in terms of customer lifetime value, user and sales growth, retention, and more. Next, Retina can provide strategies to help improve:

- Targeting and ad relevance
- Conversion rates
- Customer loyalty

Key Takeaways: **Grocery Industry Benchmarks***

- Average 1-year Customer Lifetime Value = **\$903.43**
- Average consumer spends almost **\$90K** at grocery stores over 10 years.
- Consumer spending at grocery stores was **down 17%** during COVID.
- Number of active grocery store visitors was **down 5.2%** across the U.S.
- At the merchant level, typical grocery stores saw a decline of **5% in user base** and an increase of **8% in sales**.

*This data was compiled from 4.6M anonymous random U.S. customers to understand LTV trends across merchants.

About Retina

Retina is the customer intelligence partner that provides accurate customer lifetime value metrics early in the customer journey.

RETINA

Grocery Industry Benchmark Analysis

Retina's competitive analysis shows key insights about the grocery industry as it experienced massive changes during COVID-19.

The **Revenue by Year** chart shows the aggregate change in revenue across the grocery industry. (Does not include December 2020 data.)

Action Items: **Revenue by Year**

- Annual sales growth is down 17.3% in 2020
- Operationalize growth, retention, and loyalty efforts around CLV
- Target growth efforts more accurately on high value customers with predictive CLV intelligence
